# A Message From the City Librarian

*Andrea St. Pierre*

*Imagination starts here*  
mpl.org

While few relish the coming cold and snow, we at the Milwaukee Public Library are excited!

Winter is the perfect time to visit your library. Check out a book—or ten! — to curl up with at home and read until spring arrives. There's nothing cozier than reading together as a family. It's also a great way to promote a love of books and reading that will last a lifetime. You can take the library home with you in other ways as well. E-books and DVDs for your entertainment, audiobooks when you're on the move, music CDs when you're ready to groove, and databases for all your research needs – we provide many ways for you and your family to stay active and engaged all winter long!

If, however, winter is your favorite time to be out and about, we've got you covered with fun, free, and educational programs for the whole family. Our story times, play groups, and school aged programs are designed to help Milwaukee's youngest and brightest strengthen their literacy skills. We offer a variety of STEAM programs to enrich children's knowledge and pique their interest in multiple subjects. Two exciting programs worth checking out this winter include our annual King Day celebration at the Martin Luther King Branch on Monday, January 20, where we'll honor the life and legacy of Dr. King with activities for all ages. And at Browser's Book Bash in March, we celebrate the incredible, diverse world of children's literature with some memorable book characters, dynamic entertainers, live animals, and more!

We can't wait to see you at the library!
