TIPPECANOE BRANCH

51. 3912 S. Howell Ave
52. S. 6th St and W. Norwich Ave
53. W. Oklahoma Ave & S. 6th St

Challenge yourself to explore Milwaukee neighborhoods, art, and culture this summer.

READ: Track your time reading - books, audiobooks, magazines, and online articles... it all counts!

CREATE: Stop by all the Milwaukee Public Library branches this summer to participate in a variety of art making challenges. Each branch will be ready with a different project for you to try.

DISCOVER: Can you visit all the pieces of public art featured in the Milwaukee Public Library's Public Art Scavenger Hunt? Check out the locations listed on this paper to get started, then visit other Milwaukee Public Library branches to get a list of the awesome art to visit in their neighborhood.

Check in at any branch of the Milwaukee Public Library to get a free book and a bus ticket to help you read, get creative, and discover something new this summer!

Sign up and start tracking online at [MPL.org/summerreading](https://www.mpls.org/summerreading).

Check out [MPL.org](https://www.mpls.org) & follow us online to learn about free events all summer long.

LEVEL UP ART CHALLENGE

Tippecanoe Branch

Inspired by the **Solar Flower**. Find this artwork at the **Site 52** in the Public Art Scavenger Hunt!

Join the hunt and do more **Level Up Art Challenges** at every library branch this summer!

Sun Catcher

Step 1 – Fold a paper plate in half and cut out the center.

Step 2 – Cut out 2 pieces of contact paper that are slightly larger than the center of the paper plate. Remove the backing on one sheet and place it on the back side of the paper plate, sticky side up. Save the second for later.

Step 3 – Cut tissue paper into small pieces. Create your own design and arrange them onto the sticky side of the contact paper. Once completed, attach the second sheet of contact paper on top. Your artwork should be sandwiched between the contact paper.

Optional – Use a hole puncher or pointy end of a pencil to punch out a hole at the top of your sun catcher to make it easier to hang up.

Go Beyond – Make your own pressed and dried plants at home. Lay fresh plants between sheets of paper and leave between heavy books for up to 2 weeks or until completely dried. Create a suncatcher using the same method as above.
